

Total Meter Services, Inc.

FOR IMMEDIATE RELEASE

## **TMS6000 interfaces with the Toptech TDS system**

**Toronto, January 20, 2008**– Total Meter Services, Inc. announces the completion of its integration to the TopTech TDS (**Toptech** Data Services) system. The TDS is a service provided by TopTech that allows users to gather and use transaction data from remote terminals. Total Meter Services TMS6000 operates at the physical plant controlling and automating bulk plant operations such as driver verification, transaction capture and BOL (Bill of Lading) printing. The TMS6000 then outputs the transaction data in the compatible data file recognized by TDS. The transaction data is sent immediately to TDS servers located at Toptech's facility. Each TDS customer's data is immediately available via the Internet by accessing the TDS website

Toptech Systems, Inc., part of the Liquid Controls Group, a unit of IDEX Corporation (NYSE: IEX) and can be contacted directly for more information about the TDS system.
